

# TPOT Change Report Documentation

## Pyramid Model Implementation Data System

### TPOT Change Report

**First Form Date:** *The date of the first TPOT form included in the report.*

**Number of Forms Included:** *The number of TPOT forms included in this report.*

**Last Form Date:** *The date of the last TPOT form included in the report.*

#### TPOT Indicator

#### Avg % Change

*TPOT Indicator Description*

*Average percentage change across all years in the report*

*Year 1-Year2                      Year2-Year3                      ...*  
*% Yes Year2 – % Yes Year1    % Yes Year3 – % Yes Year2    ...*

---

### Criteria Used for this Report

*The criteria selected when running this report*

Page 1 of 1

**Generated:** *The date and time that the report was generated.*

**Intent:** This report calculates the year-to-year change in percentage of 'Yes' responses for each TPOT indicator. It also calculates the average of those percentages and then displays each TPOT indicator sorted in descending order by that percentage (the highest 'Avg % Change' will be at the top). Only complete and valid TPOT forms will be included in this report.

**Important:** In order for a year range to appear in the report, there must be at least 1 TPOT form that matches the criteria in the first year. For example, assume there are two TPOT forms in 2017, one in 2018, none in 2019, and one in 2020. The report will display the following year ranges: 2017-2018, 2018-2019, and 2020-2021. 2019-2020 will not display because there were no TPOT forms in 2019.

**NOTE:** An 'N/A' value indicates that there were no 'Yes' responses to that indicator in one (or both) of the years in the calculation. For example, if indicator 5 for 2016-2017 has a 'N/A' value, that means that all the TPOT forms in either 2016 or 2017 (or both) had no 'Yes' responses for indicator 5. This also applies if there are no TPOT forms in one of the years. So if there is one TPOT form in 2016, but no TPOTs in 2017, then the indicator values will be 'N/A' for all indicators in the 2016-2017 year range.

Criteria Name	Optional?	Description
Start Date	No	<p>This filters the TPOT forms that are included in the report.</p> <p>Only TPOT forms that occurred between the start date and the end date will be included in the report.</p>
End Date	No	<p>This filters the TPOT forms that are included in the report.</p> <p>Only TPOT forms that occurred between the start date and the end date will be included in the report.</p>
Program(s), Hub(s), and Cohort(s)	No	<p>This filters the TPOT forms that are included in the report.</p> <p>All programs, hubs, and cohorts that are selected will be combined into a distinct list of programs. This is accomplished by determining what programs exist in the selected hubs and cohorts, and then adding that list of programs to the list of specific programs that were selected by the user. After that, any duplicate programs in the combined list are removed. Only TPOT forms that were completed for programs in that de-duplicated list are included.</p> <p><b>NOTE:</b> Only certain users have access to the hub and cohort criteria. Most users will only have access to the program criteria and only have one option in that program list.</p>
Classroom(s)	Yes	<p>This filters the TPOT forms that are included in the report.</p> <p>If any classrooms are selected, then only TPOT forms that are for the specified classrooms will be included.</p> <p>If no classrooms are selected, then this criteria will not exclude any TPOT forms.</p>
Employee(s)	Yes	<p>This criteria is used in conjunction with the Employee Role criteria to filter the TPOT forms included in the report.</p> <p>For example, if you select multiple employees and the 'Observer' Employee Role, then the report will only include TPOT forms that have at least one of the selected employees selected as the observer on the form.</p>

		If no employees are selected, then this criteria will not exclude any TPOT forms.
Employee Role	Yes	<p>This criteria is used in conjunction with the Employee(s) criteria to filter the TPOT forms included in the report.</p> <p>For example, if you select multiple employees and the 'Lead Teacher' Employee Role, then the report will only include TPOT forms that have at least one of the selected employees selected as the lead teacher on the form.</p> <p>If no employees are selected, then this criteria will not exclude any TPOT forms.</p>
